Subject: Letter from the President

Chipola College students and staff,

I truly pray that each and everyone of you is staying healthy and safe during this COVID-19 pandemic.

Employees at Chipola are working remotely and staying in contact with supervisors, even though the campus is closed to in-person services from March 30, after spring break, through the remainder of the semester. You can reach us through phone or email.

Instruction has shifted to online and you can contact instructors in canvas. We have compiled a list of frequently asked questions and answers and provided an office directory for more information on our website

All student and campus activities are cancelled for this semester in accordance with the Governor's Order and CDC guidelines. Likewise, the NJCAA cancelled all athletics for the semester.

However, we are doing our very best to implement processes to enable you to complete the semester successfully. Please help accomplish this goal by staying in contact with each other and checking canvas, emails and phones daily and responding quickly.

I know you are struggling with challenges and disappointments in this unprecedented situation, but I have every confidence that we can all work together to finish the semester successfully.

Dr. Sarah Clemmons
President
