Appendix

Chipola College

Student Learning Outcomes
RN-BSN Program

By graduation, the student will be able to:

N1 Integrate theories and concepts from liberal education into their current nursing practice.

N2 Apply current leadership and management concepts, skills, and decision making in the provision of high quality nursing care in a variety of settings.

N3 Critically evaluate research findings from various sources to determine their relevance and application to current nursing practice to improve patient outcomes.

N4 Evaluate needs within various practice settings in the communities and formulate teaching plans based on these needs to improve health care delivery.

N5 Serve as a change agent and client advocate in the practice of professional nursing with individuals, families, groups, and communities.

N6 Utilize effective communication techniques in professional relationships to promote teambuilding and effective client care.

N7 Identify and deliver culturally sensitive care to diverse populations served within various practice settings.
