Guidelines for Curriculum Integration Project

1. The lesson must be in Powerpoint and make correct use of this presentation software in teaching the lesson.

2. The first slide must identify the title of the lesson with your name underneath it. You need to use Word Art for this.

3. The second slide must have the Sunshine State Standard that it teaches.* The Sunshine State Standard should include the number and the verbal description that identifies the benchmark.

4. Your lesson can be original or one adapted from another source. If you adapt one, include the documentation of the source.

5. You must turn in a copy of your presentation slides (Three to a page) and any source documentation at the time you turn in your lesson on disk.

6. You must turn in your final presentation on hard copy and disk before the final examination period on Tuesday, April 29th at 2:00.

7. You must have transitions between the slides.

8. You must have at least one Gif animation.

9. You must make appropriate use of animation in your presentation.

10. You should have at least 15 slides.

11. You must have at least one picture from the WWW, digital camera or scanner. (Include the documentation if it is from the WWW.)

12. You must have an EXCEL chart in your lesson.

13. You must have an assessment (that is, where you get some response to the lesson that you taught) during or at the end of the lesson.

Your grade will be calculated from the following:

35% - adherence to guidelines
25% - use of powerpoint in presenting the material
40% - completeness of lesson in teaching the Standard
