COURSE TITLE: Introduction to LAN Management
COURSE NUMBER: CET 1486

COURSE DESCRIPTION (with prerequisites):
An introduction to software used in operating a local area network. Hands-on experience with one or more software packages will be provided. Prerequisite: CIS 1000 or CGS 1060 and acceptable college placement test scores or consent of department. Co-requisite: CET 1600 or consent of department. 3 semester hours credit.

NAME(S) OF INSTRUCTORS:
Dean Giles, Workforce Development Building “O”, Room 102A, Gilesd@chipola.edu, (850) 718-2392, B.S. degree Electrical Engineering & CompTia Network+ Certified. Lab and office hours are posted in the display case outside the computer lab.

EFFECTIVE ACADEMIC YEAR:
2011-12

REQUIRED TEXTBOOKS AND INSTRUCTIONAL SUPPLIES:

REQUIRED MATERIALS
1 Black Sharpie marker.
1 Pkg. of blue ball point pens.
1 Spiral Bound Notebook.
1 three ring binder with 1 inch spine.
1 pair of headphones
1 Chipola College Lanyard
1 Chipola College Computer Systems Technology Polo Shirt
2 GB or larger Flash Drive
30 Count spindle of Recordable CD’s

RECOMMENDED EQUIPMENT:
Access to a home PC capable of running the TestOut Computer Based Training software. Please refer to the TestOut website at www.testout.com for specific requirements.
Jensen JTK86 tool kit or equivalent.
**GRADING POLICY:**
The standing of a student in each course is expressed by one of the following letters and corresponding grading system:

- **A** – 90 – 100
- **B** – 80 – 89
- **C** – 70 – 79
- **D** – 60 – 69
- **F** – 59 or less

The Chipola Catalog provides policies and procedures regarding the grading system. A student’s Grade Point Average is derived from the grading system/quality point scale.

**ATTENDANCE AND WITHDRAWAL POLICIES:**
Chipola College expects regular attendance of all students. Students who are absent from classes for any reason other than official college activities must satisfy the instructor concerned that the absence was due to illness or other clearly unavoidable reasons. Otherwise, the student may suffer grade loss at the discretion of the instructor. Chipola policy allows each instructor to specify in the Instructor First Day Handout whether or not an absence is excusable and what affect the absence or tardy may have on the grade.

A student is allowed to repeat a course a maximum of three (3) times. **On the third attempt a student (1) must bear the full cost of instruction (unless waived by Student Services), (2) cannot withdraw, and (3) must receive a grade.**

**MAKE-UP POLICY:**
Chipola allows each instructor to specify in the Instructor First Day Handout the makeup policy.

**ACADEMIC HONOR CODE POLICY:**
Students are expected to uphold the Academic Honor Code. Chipola College’s Honor Code is based on the premise that each student has the responsibility to (1) uphold the highest standards of academic honesty in his/her own work; (2) refuse to tolerate academic dishonesty in the college community; and (3) foster a high sense of honor and social responsibility on the part of students. Further information regarding the Academic Honor Code may be found in the Chipola Catalog, Student Governance section.

**STUDENTS WITH DISABILITIES POLICY:**
Chipola College is committed to making all programs and facilities accessible to anyone with a disability. Chipola’s goal is for students to obtain maximum benefit from their educational experience and to effectively transition into the college environment. Students with disabilities are requested to voluntarily contact the Office of Students with Disabilities to complete the intake process and determine their eligibility for reasonable accommodations.
LIBRARY AND ON-LINE REFERENCE MATERIALS:
The library is a comprehensive learning resource center providing information in print, electronic, and multimedia format to support the educational objectives of the College. On-line catalogs, e-books and electronic databases can be accessed by using the LINCCWeb icon on the Chipola Library website at www.chipola.edu/library. If you have questions about database usage consult the “How to Use the Chipola Databases” on the Library website or call the Library at 850/718-2274 during regular hours. Library hours are posted each semester at the building entrance and on the Library website. See your Instructor First Day Handout for individual instructor recommendations and resources.

TECHNOLOGY RESOURCES:
The Information Technology Center, located in the library, is equipped with computer workstations. Lab hours are posted each semester at the building entrance and on the Library website. The ACE Lab, located in Building L, is available for tutoring and is equipped with computer workstations. Lab hours are posted each semester at the room entrance. The college’s learning management system is Desire 2 Learn (d2l). Classes become available on d2l on the first day of the semester. It is the student’s responsibility to log onto the d2l system the first day of class to establish the first day of attendance and to check announcements. For further information, contact your instructor or the Director of Online Learning.

ELECTRONIC DEVICE USAGE:
All electronic devices such as cell phones, beepers, pagers, and related devices are to be silenced prior to entering classrooms and/or laboratories to avoid disruption. Should it become necessary for a student to leave his/her “device” on to send or receive an emergency call and/or text message, the student must inform the instructor prior to class. If the student finds it necessary to send and/or receive an emergency call and/or text message during class/lab time, he/she is instructed to take all books and belongings and step outside the classroom to deal with the situation. To minimize classroom disruption and the distraction to classmates, the student will not be permitted to reenter the classroom during that class period. Any time a test is being administered, all such devices must be turned off and put away. If a device is seen or heard during an exam, a score of zero will be given for that exam. Initial and repeated infractions may result in disciplinary action.

DISCIPLINE SPECIFIC COMPETENCIES / LEARNING OUTCOMES:
Networking Services Technology focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the information technology industry.

### MEANS OF ACCOMPLISHING STUDENT LEARNING OUTCOMES:

The course is competency-based using handouts, videotapes, textbooks, computer-assisted instruction and instructor demonstrations. While this course is self-paced, students are expected to make regular progress. Use your time wisely.
Course materials are located in the classroom. Please see the instructor to obtain these materials.

This course is competency-based. Complete competencies in order. Read each competency guide carefully and complete all items outlined. Once completed, proceed to the next competency.

**CONFERENCES AND ASSISTANCE**

Students are welcomed and encouraged to come to my office to talk over any problems they may have in this course. Students needing assistance should contact either the lab assistant or instructors.

**LAB STATION EQUIPMENT**

The equipment you will use is rugged and reliable. However, with abuse or misuse, it will malfunction and become inoperable. Be careful and have the instructors/lab assistant demonstrate the use of the equipment before using it for the first time. Read all instructions carefully and ask questions prior to use.

Keep your lab area clean and orderly while performing assignments. Return all equipment/lab components to their proper storage area before departing at the end of the day.

**SAFETY: REMEMBER!**

Practice safety at all times while constructing, analyzing and troubleshooting. If you observe a hazard in the lab areas notify the instructor or lab assistant immediately.

Have the instructor/lab assistant point out locations of the emergency exit doors and fire extinguishers.

If an accident of any type occurs, regardless of how trivial it may seem, notify the instructor or lab assistant immediately.

**RETAKE OF COURSE:**

This course is subject to updates due to industry requirements. Students will be required to retake courses if acquired credit is five years old or authorization of instructor.

**ATTENDANCE:**

Individual class hours/days will be arranged with the instructor. You are expected to be on time and attend regularly scheduled lectures and labs. Students are required to clock in and out when arriving and leaving the classroom. NOTE: Failure to attend class will affect your grade and may be detrimental to your student grant/loan. Unexcused absences and work not made up will be considered zeros and averaged in your grade.

**CLASS BREAKS:**

When students are not on an excused break by the instructor, they are expected to be working on assigned tasks.

**STUDENT RESPONSIBILITIES:**

Students are expected to understand and follow all school rules and policies. Students are responsible for class, lab, shop and equipment care. Students are responsible for maintaining proper industry work habits and conduct.

Shop cleanup is the responsibility of all students and will be conducted on a weekly basis.

See chart this syllabus.
ASSIGNMENT AND/OR COURSE OUTLINE

Classroom Study
The Classroom Study module consists of activities in the TestOut Network+ computer based training software. This training material is presented in the form of lectures, demonstrations, and fact sheets. Assessment is provided through lab simulation activities and examinations.

0 Introduction
1 Networking Basics
6 The OSI Model
7 TCP/IP
8 IP Services
9 Operating Systems
10 Wide Area Networks (WANs)
11 Network Protection and Availability
12 Troubleshooting
13 Preparing to Certify

Recommended Reading
Read the following chapters in the Network+ Guide to Networks book for a greater depth of understanding.

- An Introduction to Networking
- Networking Standards and the OSI Model
- Network Protocols
- Topologies and Access Methods
- WAN's Internet Access, and Remote Connectivity

ASSESSMENT OF OUTCOMES
Each competency chapter has a number of lab exercises and exams. You are required to master all lab exercises. Lab exercises are graded as pass/fail. If you fail to achieve a pass grade on a lab exercise, you may re-study and re-attempt the exercise as many times as required to achieve a pass grade. TestOut allows you to retake competency exams. You will be graded on the highest scoring attempt. Do not start an exam until you are sure that you are ready. When all chapter labs are passed with 100% and all exams are passed with 80%, you may move on to the next chapter.

All chapter labs and exams should be studied thoroughly as there will be 4 midterm examinations based on the labs and exams of each chapter. You will only be able to take a midterm examination once.

There will also be a comprehensive final examination at the end of the course. This will include any of the labs or exam questions from the course. You will only be able to take the final exam once.

Simulated certification exams may be taken as many times as necessary to achieve proficiency. Your ultimate goal should be to sit for the certification exam. To be considered eligible for certification, you must achieve 3 consecutive scores of 95% or higher on the simulated certification exam. When this level is attained, you should schedule a certification exam.
Final grade will be determined according to the following:
20% Lab exercises - completed labs (100%) / total labs
20% Competency Exams - completed exams (80%) / total exams
20% Midterm Exams
20% Final Exam
20% Participation

See your Instructor First Day Handout for individual instructor assignment schedule.
