ASSIGNMENT AND/OR COURSE OUTLINE

Students enrolled in RED 4312 will be required to complete the following:
Observation and Participation
This course requires 10 hours of observation and participation in a local public school. You must observe in grades k-12, during the reading block AND the intervention period. You may not earn more than 2 hours in one day for this course. Be sure to sign in at the school EVERY time you go, even if the school says it is not required. The log must be turned in to the instructor by the designated date. Any falsification of signatures or other data on the log will result in an Honor Code Violation* to be placed in your permanent record, a letter-grade reduction of this course’s final grade*, and you will have to complete an additional 5 hours in a school and classroom designated by the instructor. Failure to complete the required hours or failing to turn in the form by the designated date will cause you to receive an Incomplete for this course until the hours are satisfactorily completed and the log submitted. YOU ARE EXPECTED TO ACT IN A PROFESSIONAL MANNER WHILE IN THE SCHOOL SETTING. YOU ARE ALSO EXPECTED TO GO TO THE SCHOOL ON A REGULAR SCHEDULE SO THE TEACHER KNOWS WHEN TO EXPECT YOU. Students MUST wear black slacks and a School of Education polo to all PK-12 campuses. The shirts are available at the campus bookstore for student purchase.

*If this is your first Honor Code Violation; if you already have an Honor Code Violation on file, you could receive a failing grade for the course and/or face a committee hearing and expulsion from the Teacher Education Program.

Tasks (50% of final grade)
*Tasks must meet the criteria for “demonstrated” as determined by the scoring rubric to earn credit for this course. Tasks are due at the beginning of class. Tasks and Major Assignments are considered “LATE” after the moment the instructor takes them up. Any task/major assignment received late (WHICH BEGINS AFTER THE FIRST 5 MINUTES OF CLASS) will result in a grade of 10 point deduction PER DAY. THIS WILL ONLY BE VALID FOR A 48 HOUR PERIOD. AFTER THOSE 48 HOURS THE GRADE WILL GO TO A ZERO. A task judged as “partially demonstrated” or “not demonstrated” may be resubmitted for the purpose of demonstrating the accomplished practice indicator (YOUR GRADE WILL NOT CHANGE).

The original grade will be used when calculating the course average. Points will not be added for resubmissions but will be deducted if not resubmitted within the timeframe set forth by the instructor. To pass this class ALL tasks must be successfully demonstrated.

Task CC1A: Administering and Scoring of Formal and Informal Reading Assessments:
The teacher candidate works with one child who is in the intermediate grades. Observation and anecdotal records should be kept throughout the case study and used to write a summary report stating the findings of strengths and weaknesses of the student in phonics, fluency, vocabulary, and comprehension. You should discuss the role of assessment in planning instruction to meet learning needs. Based on strengths and weaknesses of the student as indicated by various reading assessments, the teacher candidate will identify three different instructional strategies to use with this child, describing the strategies and explaining how each will accommodate the learning needs of this child. A presentation will be given within class to present your findings. A minimum of four reading assessments (formal and informal) should be given:

FORMAL: Phoneme Segmentation Test, Phonics Survey, San Diego Quick Assessment, Fry Oral Reading Test, Test of Word Reading Efficiency (TOWRE), Fox in the Box, and many others using the Bader Reading and Language Inventory or other source.
INFORMAL: Have child read a book or story passage to you and complete a story retelling, informal reading inventory, fluency check, running records, etc.; note strengths and weaknesses with phonemic awareness, phonics, fluency, vocabulary, and comprehension. Compare results from the formal assessments and informal assessments noting similarities and differences.

**Task CC1C: FCAT Scores Analysis:** You will analyze FSA scores and write a compare/contrast analysis of the information reported. Discuss student scores in general, and discuss what content areas reflect strengths and weaknesses of the class. You should also discuss whether the content areas reported are valid as far as saying the FSA measures mastery of the State Standards.

Information to be included should be: discussion of the scores in general, particular strengths and weaknesses of this class as a whole in reading as reflected by the scores, and evidence of growth in reading as indicated by the change in mean developmental score from the previous year. You should also analyze the mean points earned by Content Area and discuss which particular areas (words/phrases, main idea/purpose, comparisons, and references/research) the teacher should improve instruction next year and explain why you feel this is important. You should also discuss whether the content areas reported on the FSA scores are valid as far as saying the FSA measures mastery of the State Standards.

Discuss how the test results can be used by teachers in planning specific instructional strategies centered on the State Standards. How will the test data help the teacher differentiate instruction with grouping strategies (whole group, small group, one-to-one, “iii” group) and intensity of instruction using appropriate curricular materials and strategies?

**Exams (20% of final grade)**
There will be one midterm and one final exam. They will each receive equal weight.

**Major Assignments (20% of final grade)**
1. **FSA Released Test Analysis** – Download an Elementary Released FSA Reading Test from DOE’s website. You should analyze each question on the FSA and select ten questions. List the question and list the State Standard being measured with that question. Additionally, describe the story formats for each story. Are the stories all fiction, all nonfiction, or both? What types of passages are seen – all stories? Poems? Recipes? Directions? Biographies?

2. **Research Discussion** – Research for articles discussing interpretive issues that may arise when English language tests are used to assess reading growth in Limited English Proficient (LEP) students. Identify and discuss reading assessment techniques that would be appropriate for diagnosing and monitoring reading progress of LEP students and students with disabilities.

3. **Portfolio Assessment Analysis** – Research and identify appropriate criteria for selecting materials to include in portfolios for monitoring student progress over time. You should select at least five criteria, citing specific examples of work students could complete to represent the criteria you choose. Then write a reflection to discuss how portfolio assessment is important for progress monitoring of struggling students.

**Course Evaluation Criteria:**
- Exams (20%)
- Major Assignments (20%)
• Tasks (50%)*
• Professionalism in Attendance (5%)
• Professionalism in Participation (5%)

*Participation grade is earned by achieving a satisfactory participation grade on in-class assignments. Consider that you are not able to participate if you are not in class. You can see later in the syllabus that being on your cell phone is also included in participation and how points will be deducted.

You will receive two grades in this category: one for attendance, the other for participation.

**GRADE ONE: ATTENDANCE** - The following scale will be used to calculate the attendance grade based on unexcused absences per 50-minute class period. The first 3 absences can be missed for any reason and no deduction will be made. After the third absence, the following will take effect:

- 0 to 3 absences…….100
- 4th absence………… 90
- 5th absence………… 70
- 6th absence………… 60
- Over 6 absences…… 0

Being tardy will result in a 5-point deduction per tardy, beginning after the third tardy.

**GRADE TWO: PARTICIPATION** – Participating in class discussion and activities is an important component of the learning process. You are expected to participate in these discussions and activities and not be distracted by nonrelated things. That being said, having your laptops open during class, text messaging during class, working on assignments not related to this class, or in cases of being in the computer lab, being on websites not related to the course content (such as Facebook, Twitter, etc.) will result in point deductions for each offense. Your participation grade will be deducted each time you engage in non-class related activities, including all the aforementioned.

- 1st offense………… 90
- 2nd offense……….. 70
- 3rd offense……….. 70
- Over 3 offenses…… 0

See your Instructor First Day Handout for individual instructor assignment schedule.
