COURSE TITLE: HYDRAULICS AND HYDROLOGY
COURSE NUMBER: ETC 2521

COURSE DESCRIPTION (with prerequisites):
The course introduces the basic theory, engineering, and design technology related to
hydrology and drainage areas, storm water runoff, and stream flow analysis. The
student is also introduced to the basic theory and engineering design of the hydraulic
flow in pipes and in open channel systems. Design concepts, techniques, and
illustrations of hydrology and hydraulics are covered. Prerequisite: MAC 1114.
3 semester credit hours

NAME(S) OF INSTRUCTORS:
Olabode Ogedengbe, Workforce Development Building, Room 123, phone 718-2390,
OgedengeO@chipola.edu.

EFFECTIVE ACADEMIC YEAR:
2018-2019

REQUIRED TEXTBOOKS AND INSTRUCTIONAL MATERIALS:
Computer Applications In Hydraulic Engineering, 7th Edition, Published By: Bentley’s
Haestad Methods Water Solutions, ISBN 0971414165

REQUIRED EQUIPMENT & SUPPLIES:
• Access to a personal computer and printer;
• Access to Microsoft Office (specifically Microsoft Word, Excel, and PowerPoint)
• Internet connection.

GRADING POLICY:
The standing of a student in each course is expressed by one of the following letters
and corresponding grading system:
A – 90 – 100
B – 80 – 89
C – 70 – 79
D – 60 – 69
F – 59 or less
The Chipola Catalog provides policies and procedures regarding the grading system. A
student’s Grade Point Average is derived from the grading system/quality point scale.

ATTENDANCE AND WITHDRAWAL POLICIES:
Chipola College expects regular attendance of all students, and all instructors record
attendance daily. Students who are absent from classes for any reason other than
official college activities must satisfy the instructor concerned that the absence was due
to illness or other clearly unavoidable reasons. Otherwise, the student may suffer grade loss at the discretion of the instructor. Chipola policy allows each instructor to specify in the Instructor First Day Handout whether or not an absence is excusable and what affect the absence or tardy may have on the grade.

A student is allowed to repeat a course a maximum of three (3) times. **On the third attempt a student (1) must bear the full cost of instruction (unless waived by Student Services), (2) cannot withdraw, and (3) must receive a grade.**

**MAKE-UP POLICY:**
Chipola allows each instructor to specify in the Instructor First Day Handout the makeup policy.

**ACADEMIC HONOR CODE POLICY:**
Students are expected to uphold the Academic Honor Code. Chipola College’s Honor Code is based on the premise that each student has the responsibility to (1) uphold the highest standards of academic honesty in his/her own work; (2) refuse to tolerate academic dishonesty in the college community; and (3) foster a high sense of honor and social responsibility on the part of students. Further information regarding the Academic Honor Code may be found in the Chipola Catalog, Student Governance section.

**STUDENTS WITH DISABILITIES POLICY:**
Chipola College is committed to making all programs and facilities accessible to anyone with a disability. Chipola’s goal is for students to obtain maximum benefit from their educational experience and to effectively transition into the college environment. Students with disabilities are requested to voluntarily contact the Office of Students with Disabilities to complete the intake process and determine their eligibility for reasonable accommodations.

**NOTICE OF EQUAL ACCESS/EQUAL OPPORTUNITY AND NONDISCRIMINATION:**
Chipola College does not discriminate against any persons, employees, students, applicants or others affiliated with the college with regard to race, color, religion, ethnicity, national origin, age, veteran’s status, disability, gender, genetic information, marital status, pregnancy or any other protected class under applicable federal and state laws, in any college program, activity or employment.

Wendy Pippen, Associate Vice President of Human Resources, Equity Officer and Title IX Coordinator, 3094 Indian Circle, Marianna, FL 32446, Building A, Room 183C, 850-718-2269, pippenw@chipola.edu.

**LIBRARY AND ON-LINE REFERENCE MATERIALS:**
The library is a comprehensive learning resource center providing information in print, electronic, and multimedia format to support the educational objectives of the College. On-line catalogs, e-books and electronic databases can be accessed by using the **LINCCWeb** icon on the Chipola Library website at [www.chipola.edu/library](http://www.chipola.edu/library). If you have questions about database usage consult the “How to Use the Chipola Databases” on
the Library website or call the Library at 850/718-2274 during regular hours. Library hours are posted each semester at the building entrance and on the Library website. See your Instructor First Day Handout for individual instructor recommendations and resources.

TECHNOLOGY RESOURCES:
The college’s learning management system is Canvas. Classes become available on Canvas on the first day of the semester. It is the student’s responsibility to log onto the Canvas system the first day of class to establish the first day of attendance and to check announcements. All official class communication must be through Canvas. For further information, contact your instructor or the Director of eLearning. The Canvas support hotline is available online in live chat and on the phone, toll-free, at 855-308-2812 for any issues in accessing or utilizing Canvas. The Technology Center, located in the library, is equipped with computer workstations. Lab hours are posted each semester at the building entrance and on the Library website.

FREE TUTORING RESOURCES:
The Academic Center for Excellence (ACE) Lab, located in Building L, offers free tutoring from 8 a.m. to 5 p.m. and is equipped with computer workstations. ACE lab hours are posted each semester at the room entrance and on the website. Additionally, Chipola College has contracted Smarthinking, a Pearson Company, for online tutoring services, accessible especially from 5 p.m. to 8 a.m. and weekends. Smarthinking can be accessed through Canvas.

ELECTRONIC DEVICE USAGE STATEMENT:
Classrooms should be free of all unnecessary distractions from the task of learning. Therefore, as a general rule, students should silence and avoid use of all electronic devices (laptops, phones, tablets, etc.) not being used for coursework. Consult first-day handouts for any specific policies related to the use of electronic devices in the classroom, as they may vary depending upon the nature of the course or the guidelines of the instructor. Faculty reserve the right to regulate the use of electronic devices and their accessories in class.

DISCIPLINE SPECIFIC COMPETENCIES / LEARNING OUTCOMES:
Program Learning Outcome: Understand basic hydraulic and mechanical problems

3
At the completion of the course, the student will be able to:

- Define storm water management
- Describe properties of waters such as cohesion, adhesion, and capillarity
- Compute pressure in water at various depths and with varying surfaces
- Develop energy grade line and hydraulic grade line for basic systems
- Calculate flows through an orifice, over a weir, and under a gate
- Identify and compute critical depth in a channel
- Analyze an existing culvert for adequacy using inlet and outlet control
- Determine peak runoff by the Rational Method and NRCC Method
- Compute pipe sizes in a storm sewer design
- Make use of various technologies to organize, acquire, and convey information

Communicate with clarity and precision regarding designs and concepts.

Assessment methods used are:

Q, UT, SD, SP, Proj, F

MEANS OF ACCOMPLISHING STUDENT LEARNING OUTCOMES:

Learning outcomes are determined by measuring the ability of each student to retain the learning objectives of the course. Performance-based methods, such as completion of assigned projects, general knowledge tests, oral and written presentations of assignments, group discussions, observation of mastery of critical skills and analysis of the final product will determine the final grade on this course.

ASSIGNMENT AND/OR COURSE OUTLINE

Program Learning Outcome: Understand basic hydraulic and mechanical problems

Course Learning Outcomes: At the completion of the course, the student will be able to:

- Define storm water management
- Describe properties of waters such as cohesion, adhesion, and capillarity
- Compute pressure in water at various depths and with varying surfaces
- Develop energy grade line and hydraulic grade line for basic systems
- Calculate flows through an orifice, over a weir, and under a gate
- Identify and compute critical depth in a channel
- Analyze an existing culvert for adequacy using inlet and outlet control
- Determine peak runoff by the Rational Method and NRCC Method
- Compute pipe sizes in a storm sewer design
- Make use of various technologies to organize, acquire, and convey information
Communicate with clarity and precision regarding designs and concepts

**Assessment of Learning Outcomes:** Learning outcomes are determined by measuring the ability of each student to retain the learning outcomes of the course. Performance-based methods, such as completion of assignments, group discussions, observations of mastery of critical skills and analysis of the final product will determine the final grade on this course.

**ETC 2521 Hydraulic and Hydrology**

**Session Agenda:** Class will start promptly at the times listed. Each session will include presentation, discussion, and lab time.

**Additional Lab Time:** Lab time can be arranged with your instructor.

**Suggestion for study:** Students should follow the schedule for assignments and due dates, read ahead on topics to be covered in class, ask question to clarify the topics that are not completely clear to you, and work with instructor during lab times.

**No disruptions, disrespectful behavior, or violation of the student code will not be tolerated.** Chipola College and instructor are committed to maintaining standards of academic honesty and integrity is a share responsibility. All are expected to know and comply with Chipola College Academic Integrity Policy which prohibits dishonesty in any form, including but not limited to cheating, plagiarism, fabrication, and other forms of misconduct.
GRADING PROCEDURES: 50% - EXERCISES & TUTORIALS
   5% - PROJECTS
   10% - CLASS PARTICIPATION & ATTENDANCE
   10% - EXAM 1
   10% - EXAM 2
   15% - FINAL EXAM

Work is due two weeks after assignment or as per schedule. Work that is late will lose points (10% per week).
Exercises will be grade on a 10 points scale. Project will be graded on 100 point scale
The instructor reserves the right to modify this syllabus for the benefit of the class as he may evaluate. Any changes will be communicated to the class in advance of the change to give every student a chance to comment and make adjustment.
No cell phone or pager use is allowed in the classroom and should be turned off during lectures and presentations.

ETC 2521 Hydraulics and Hydrology
Tentative Schedule

Introduction and Overview
Ch. 1 – Read chapter 1 and complete Exercises assigned
Ch. 2 – Read chapter 2 and complete Exercises assigned
Ch. 3 – Read chapter 3 and complete Exercises assigned
Ch. 4 – Read chapter 4 and complete Exercises assigned
Ch. 5 – Read chapter 5 and complete Exercises assigned
Ch. 6 – Read chapter 6 and complete Exercises assigned
Ch. 7 – Read chapter 7 and complete Exercises assigned
Ch. 8 – Read chapter 8 and complete Exercises assigned
Ch. 9 – Read chapter 9 and complete Exercises assigned
Ch. 10 – Read chapter 10 and complete Exercises assigned
Ch. 11 – Read chapter 11 and complete Exercises assigned
Ch. 12 – Read chapter 12 and complete Exercises assigned

See your Instructor First Day Handout for individual instructor assignment schedule.
