

Both Chipola teams to play in State Tournament

Both Chipola College basketball teams will represent the Panhandle Conference in the State Junior College basketball tournament, March 3-6, in the Milton H. Johnson Health Center.

The Indians will face the second place team from the Mid-Florida conference in the first round of the state tourney, March 3. Mid-Florida teams still in contention are: FCCJ, Daytona, Santa Fe, Central Florida and Seminole.

TCC, PJC and OW remain in a tight race for second place in the men's league, which could force a playoff to determine the other Panhandle team in the state tourney.

The Indians improved to 26-3 on the season and 10-1 in conference play with a 73-61 win over Okaloosa Walton on Feb. 18. Chipola was led in scoring by Mario Jointer with 15 points. Deke Thompson and Vas'shun Newborne had 14 a piece. Leon Woodstock scored 11. The Indians forced OW into 21 turnovers and had 12 steals on the game.

The Indians logged a 71-57 win over Pensacola on Feb. 16.

Chipola captured the men's Panhandle Conference championship with an 83-66 win over Gulf Coast on Feb. 14. The Indians were led in scoring by Je'Kel Foster with 33 points including 8 three

pointers. He was 12 of 19 from the field with 4 rebounds and 2 steals. Newbourne scored 13 points and 10 rebounds. Jointer added 13 points and 5 rebounds.

Chipola head coach Chris Jans, said, "If you had told me at the beginning of the season that we would be conference champs with three games left, I would have said you were crazy. But we've accomplished that goal, and I'm just extremely happy for our team and coaches and for this community."

Chipola is the top ranked team in the state and sixth in the national poll. The Indians finish the regular season on the road at Tallahassee, Feb. 21.

The Lady Indians will play Central Florida CC, the Mid-Florida Champion, March 4, in the state tournament. Chipola defeated Central Florida, 67-60, on Nov. 28.

Starting point guard Reggie Maddox is nursing a broken foot, but she is hopeful for the state tournament.

The Lady Indians finished third in the league following a 54-50 loss to OW on Feb. 18. Chipola was 22-7, 8-6 in the conference heading into a Feb. 21 game at TCC.

SELF STUDY COUNTDOWN

6 weeks and counting

SACS Substantive Change Committee Visit

During the April 5-7 SACS Substantive Change Committee visit, six peer educators from four-year colleges in other states will assess the new Teacher Education Program according to the Commission on Colleges' new accreditation requirements.

SACS Associate Executive Director, Dr. Gerald Lord, recently wrote, "Our focus will be on the new degree program, but technically the visiting committee can look at anything it wants to regarding compliance" (February 3, 2004).

That means all departments of the college should prepare for review according to the new *Principles of Accreditation*. For the next six weeks, *Chipola This Week* will publish important sections of the *Principles*. Anyone who would like a copy should contact the Planning Office or visit the SACS website at <http://www.sacscoc.org/pdf/principles%20of%20accreditation1.pdf>.

Shown below are 16 important Comprehensive Standards in Section III:

Section III: Comprehensive Standards—All Educational Programs

3.4.1 The institution demonstrates that each educational program:

- a. is approved by the faculty and the administration.
- b. establishes and evaluates program and learning outcomes.

3.4.2 The institution's continuing education, outreach, and service programs are consistent with the institution's mission.

3.4.3 The institution publishes admissions policies consistent with its mission.

3.4.4 The institution has a defined and published policy for evaluating, awarding, and accepting credit for transfer, experiential learning, advanced placement and professional certificates that is consistent with its mission and ensures that course work and learning outcomes are at the collegiate level and comparable to the institution's own degree programs. The institution assumes responsibility for the academic quality of any course work or credit recorded on the institution's transcript.

3.4.5 The institution publishes academic policies that adhere to principles of good educational practice. These are disseminated to students, faculty and other interested parties through publications that accurately represent the programs and services of the institution.

3.4.6 The institution employs sound and acceptable practices for determining the amount and level of credit awarded for courses, regardless of format or mode of delivery.

3.4.7 The institution ensures the quality of educational programs/courses offered through consortial relationships or contractual agreements, ensures ongoing compliance with the comprehensive requirements, and evaluates the agreement against the purpose of the institution.

3.4.8 The institution awards academic credit for course work taken on a noncredit basis only when there is documentation that the noncredit course work is equivalent to a designated credit experience.

3.4.9 The institution provides appropriate academic support services.

3.4.10 The institution defines and publishes general education and major program requirements for all its programs.

These requirements conform to commonly accepted standards and practices for undergraduate programs as well as graduate and post-baccalaureate professional degree programs.

3.4.11 The institution protects the security, confidentiality, and integrity of its student academic records and maintains special security measures to protect and back up the data.

3.4.12 The institution places primary responsibility for the content, quality, and effectiveness of the curriculum with its faculty.

3.4.13 For each major in a degree program, the institution assigns responsibility for program coordination, as well as for curriculum development and review, to persons academically qualified in the field. In those degree programs for which the institution does not identify a major, this requirement applies to a curricular area or concentration.

3.4.14 The institution's use of technology enhances student learning, is appropriate for meeting the objectives of its programs, and ensures that students have access to and training in the use of technology.

Comprehensive Standards: Undergraduate Programs

3.5.1 The institution identifies competencies within the general education core and provides evidence that graduates have attained those college-level competencies.

3.5.2 The institution awards degrees only to those students who have earned at least 25 percent of the credit hours required for the degree through instruction offered by that institution.
