O'Daniel wins Jackson Chamber's Distinguished Service Award

Dr. Dale O'Daniel is the recipient of the 2002 Distinguished Service Award presented by the Jackson County Chamber of Commerce.

Bill McQuagge, executive director of the Jackson Chamber, said, "Dale is one of the most positive people you'll ever meet. He is always happy to share the college facilities with the community. He is a great friend to the chamber and to the people of Jackson County."

O'Daniel became president of Chipola Junior College in 1995, 28 years after he began his academic career as an economics professor at Chipola. From 1980 to 1986, he served as Chipola's director of business affairs and dean of administrative and business services.

He moved to Daytona Beach Community College in 1986 where he served as vice president for administration and business services until 1994. He also served as interim president of DBCC in 1990. O'Daniel returned to Chipola as president in 1995. During his tenure, the college has undergone a multi-million dollar technology upgrade which brought Chipola screaming into the information technology age. The technology plan has provided

hundreds of personal computers and high-speed internet access for Chipola students and employees. *Yahoo* magazine named CJC one of the nation's most wired campuses in 1999.

President O'Daniel also has led Chipola in the construction of a new Public Service Building, Literature/Language Building, science labs and campus-wide renovations. A new baseball complex and a new Health Science building are currently under construction. Major renovations of the library, residence hall and former English building also are in the works.

O'Daniel is president of the Florida Community College Activities Association and past president of the Florida Association of Community Colleges. He is a member of the Marianna Kiwanis and is president of the Fisherman's Sunday School Class at First Baptist Church. He is a member of the steering committee for Imagine Jackson, the county visioning project.

An instrument-rated pilot, O'Daniel also enjoys building and flying radio-controlled miniature airplanes. Dale and his wife, Judith, have a son, Shannon, and two grandsons.
