Chipola men pick up 1000th Win

The Chipola Junior College men's basketball program picked up win number 1,000 with a 68-62 victory over Gulf Coast in Panama City on Tuesday, Jan. 25.

Chipola held Gulf Coast to a mere 20 points in the first half. Head coach Ryan Cross says, "I'm proud of our guys. We defended well and really controlled most of the game. Our team did a nice job of pulling out the win." Kevin Paige sparked the Indians in the win with 20 rebounds and 7 points. Janerio Spurlock led CJC in scoring with 19 points. Charles Sanders had 17, and Marcelle Davis contributed 10.

Chipola began men's basketball in 1947, the year the college was founded. The vast majority of the CJC's wins came under retired coach Milton Johnson, who won 628 games from 1961 to 1993. Known as the winningest coach in Florida Junior College history, the CJC gym was named in Johnson's honor shortly after his retirement. The Panhandle Conference Championship Trophy also bears his name. Other CJC coaches who contributed big numbers toward the 999 total include: Bud Burger, who won 98 games from 1952 to 1956, and Jim Pavy, who won 97 games between 1956 and 1961. Current CJC head coach Ryan Cross is only the twelfth man to lead the Indians 53 year-old basketball program.

With win number 1,000, Chipola improves to 3-2 in the conference and 18-5 overall. The Indians are second in the conference, behind first place Okaloosa Walton at 4-1. Chipola is a half game ahead of Tallahassee and Pensacola, both at 3-3. Chipola is ranked fourth in the state. The men's panhandle conference standings as of Jan. 26 are as follows:

Campbell setting the tone for Chipola Hoops

Chipola's Will Campbell leads the state in rebounding and according to Chipola coach Ryan Cross, he may be the top rebounder in the nation. Campbell, a 6'7, 240 pound native of Elmira, NY, is one of six sophomores who has led Chipola to a strong 18-5 record and second place in the conference.

Cross says, "Will really sets the tone for what type of team we are. He is aggressive and physically dominates the inside in the paint. He's as good a rebounder as anyone in the country and as good a post player as any JUCO anywhere."

Campbell transferred to Chipola from the University of Buffalo where he averaged 12 points and 6 rebounds his freshman season. Campbell is one of the most highly recruited players on the CJC squad. Currently, he's being looked at by UNC-Char-

Okaloosa-Walton (4-1), Chipola (3-2), Tallahassee (3-3), Pensacola (3-3), Gulf Coast (1-5). All five Panhandle Conference teams are listed in the state's Top 10 Poll. Okaloosa-Walton is first. Tallahassee is second. Chipola is fourth. Pensacola is seventh and Gulf Coast is tenth.

Several CJC players are listed in the FCCAA's Player's Report. Michael Hardaway leads the state in assists with 11 per game, and is seventh in steals with a 2.95 average. Will Campbell leads the state in rebounds averaging 12.55 per game. Janerio Spurlock is fifth in scoring averaging 20.47 points per game.

The Lady Indians fell to Gulf Coast 66-58 on Jan. 25. Tina Stapleton led Chipola with 15. Keelee Traylor had 14. Shehera Clark had 13. Shannon O'Connor added 12. The Lady Indians slip to 3-4 in the league and 14-8 overall. Gulf Coast leads the women's conference race at 6-1. The Lady Indians are ranked eighth in the state. Keelee Traylor is third in the state in rebounding with 13.10 per game. Sheherah Clark is second in assists with 5.62 per game and fourth in steals with 4 per game.

Chipola will celebrate Homecoming with a pair of games against Tallahassee on Saturday, Feb. 5, at the Johnson Health Center. An alumni reception begins at 4:30 p.m. Chipola's top athletes of the century will be recognized during the men's pre-game ceremony. The 2000 Homecoming Queen will be crowned at halftime.

For the latest scores and information, call the CJC hotline at 718-2CJC, or visit the CJC web site at www.chipola.cc.fl.us

lotte, Florida State, Virginia- Tech, Rutgers, Oklahoma and Wyoming. Cross says Campbell is on track to graduate and should do well when he returns to Division 1 ball. In addition to topping the rebounding charts with a 12.55 per game average, Campbell also is contributing 14 points per game for the Indians.

Campbell was a standout high school player at Elmira Free Academy where he averaged 17.8 points, 11 rebounds and 2.5 blocks per game. He led Elmira to back-to-back conference championships and was named All State and Conference player of the year.

Campbell and the rest of the Indians host Pensacola on Saturday, Jan. 29, at 7:30 p.m. in the Johnson Center.

CJC health sciences now accepting applications

Applications are currently being accepted for certain programs offered by the Chipola Junior College Health Sciences Department.

The following limited enrollment programs have special requirements: Emergency Medical Technician, Patient Care Assistant, Occupational Therapy Assistant, Practical Nursing and Associate Degree Nursing. Due to the unique responsibilities involved in the delivery of health care services, students seeking admission to these programs must meet certain admission criteria. Applicants with the best qualifications will be selected.

The programs also have special attendance requirements, grading policies, dress codes and fees. Curricula for these programs are prescribed by the Department of Education, Health Rehabilitative Services-EMS Division, and the State Board of Nursing. All who satisfactorily complete these programs will earn certificates; however, licensure to practice is dependent upon passing a state licensing or certification examination.

HAPPY BIRTHDAY CJC FAMILY

5 - Johnny Meredith
6 - Rosalyn Cash-Jones

FSU chemist to speak at CJC Science Fair

Florida State University Chemistry professor Dr. Penny J. Gilmer will deliver the keynote address at the Chipola Regional Science and Engineering Fair on Friday, Feb. 11, at 10 a.m. in the Chipola Theater.

Her presentation, "Bringing Undergraduates into Science Research," will describe the ways she involves students in research on cancer and autoimmune diseases. Gilmer involves students in contextual learning experiences in science and medicine. Students select a disease of interest in either cancer or autoimmunity to study. Student research sources include published medical literature, interviews with doctors and patients, and information available through the Internet. Some of the diseases her students have studied include prostate cancer, non-Hodgkin's disease, lupus, leukemia, and colon cancer. Students develop and maintain new websites designed for patients to learn more about the diseases they have studied. Many of her students plan to attend medical school.

Gilmer received her doctorate in biochemistry at University of California, Berkeley. After com-

pleting a postdoctoral fellowship at Stanford University, she rose through the ranks to Professor of Chemistry at Florida State. She is currently writing a dissertation for a second doctorate in science education at Curtin University of Technology in Western Australia through distance education.

Gilmer is active in the Tallahassee chapter of the Association for Women in Science, in FSU's Friends of the Library, and the Tallahassee club of Zonta International. She recently developed an interdisciplinary science course called *Science, Technology and Society*, that integrates ethics and current events into science and technology. Gilmer is Co-Principal Investigator of the NSF-funded Florida Collaborative for Excellence in Teacher Preparation (FCETP). Gilmer co-edited with Jane B. McDonald, a Science FEAT monograph, *Science in the Elementary School Classroom: Portraits of Action Research*, in 1997. The monograph was published by the SouthEastern Regional Vision for Education.

Will Rogers on campus Monday

Humorist Will Rogers will come to life in a presentation at the CJC Theater on Monday, Jan. 31, at 11 a.m.

The performance is part of the National Chautauqua Tour, American Humorist Series, which debuted in the summer of 1998 in the Great Plains. Chautauqua (shuh-taw-kwa) began in 1874 on the banks of Lake Chautauqua in upstate New York and has developed into a thoughtful, educational, entertaining event.

Will Rogers (1879 to 1935) was a cowboy, actor, newspaper columnist, radio personality and humorist. As one of the most well known voices of his time, he traveled the world, knew all the big men of his age, joked about presidents and became known as "America's apostle for common sense." Rogers once said he was "curious to see how far a competent man could go in politics . . . it has never been tried before."

Doug Watson, professor of English at Oklahoma Baptist University, will portray the character of Rogers. Audience members will also have the opportunity to talk with the scholar when he steps out of character to discuss his ideas on this important historical figure.

The performance was organized by the Florida Humanities Council and comes to Chipola through the generosity of several groups. Through a grant from Chipola's Staff and Program Development Committee, the CJC performances are free and open to the public. Chipola's Chautauqua also will feature the characters of Langston Hughes, March 27; and James Thurber, April 17.

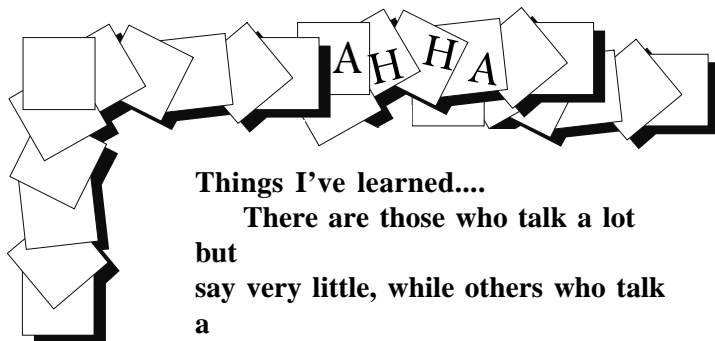

For information about the program, call Joan Stadskev at (850) 718-2301.
