Chipola hosted and won the first men's state tourney in 1961, and CJC has won seven state titles—more than any Florida school. The men's tournament returned to CJC in 1996 after 35 years. Chipola also hosted the first ever, combined men's and women's tournament in 1997 and again in 1998, 1999 and 2000.

Women's action begins Wednesday, March 7, with four first round women's games. The afternoon session begins at 1:00 p.m., when Palm Beach meets Central Florida. In the 3:00 p.m. game, Miami Dade plays Tallahassee. The evening session will pit Seminole against Okaloosa-Walton in the 6:00 p.m. game. Gulf Coast will face Daytona Beach in the 8 p.m. nightcap.

Men's action begins Thursday, March 8, with four first round games. Indian River plays Sante Fe in the 1:00 opener. Daytona Beach meets Pasco Hernando in the 3:00 p.m. game. Evening session action will see Hillsborough vs. Okaloosa Walton in the 6:00 p.m. game. Top-ranked Tallahassee will play Palm Beach in the 8:00 p.m. game.

Friday, March 9 begins with a women's semi-final game at 1 p.m., followed by a men's semi-final game at 3:00 p.m. The evening session will include a women's semi-final match-up at 6 p.m. and a men's semi-final match-up at 8 p.m.

Domestic Violence Conference at CJC March 14-16

The Fourth Annual Rural Domestic Violence Conference will be held March 14-16 at the Milton H. Johnson Health Center on the campus of Chipola Junior College.

Chipola's Department of Continuing Education is co-hosting the event with State Attorney Jim Appleman, Jackson County Sheriff John P. McDaniel and the Florida Coalition Against Domestic Violence.

The conference begins Wednesday, March 14 at 8 a.m. and runs through Noon on Friday, March 16.

The program is expected to attract some 500 participants, including law enforcement officers, nurses, social workers and judges from across Florida. Registrations have also come in from Arkansas, New Jersey, Alabama, Georgia and Texas. Margie Williams, CJC director of Continuing Education, reports that the meeting is the largest rural domestic violence conference in the U.S.

The keynote speaker will be Dr. Gaynell Colburn, a physically-challenged, wellness consultant, who works as a vocalist and percussionist

for Bill Cosby and Stevie Wonder.

Colburn's motivational and educational programs for all ages have had tremendous success in at-risk communities, schools, colleges and rehab centers. She is a frequent presenter at national conferences and organizations. A passionate victim's advocate, Colburn was the recipient of the 1998 Essence Award, a salute to distinguished African-Americans, some of whom are well known and others whose achievement often is unrecognized. The public is invited to attend her speech on Wednesday, March 14, from 9:30 to 10:15 a.m. in the Johnson Health Center. Williams says, "I promise that this will be some of the most inspiring time you will spend this year!"

Seminars are slated on specific areas of the domestic violence problem, ranging from case management to law enforcement issues. Participants from various professions may earn continuing education credit for attending the conference.

For registration information, call the Chipola Office of Continuing Education at 718-2239.

Public invited to hear prominent astronomer at CJC

Dr. Terry D. Oswalt, professor of Physics and Space Sciences, and Associate Dean for Research at Florida Institute of Technology, will deliver two public lectures at Chipola on Wednesday, March 7.

Dr. Oswalt will present, "Prospecting in the Stellar Graveyard" at 10 a.m. on Wednesday, in the Arts Center. Specifically, he will discuss white dwarf stars and the life cycles of typical stellar objects.

At 6 p.m. on Wednesday, in Jackson Hall of the Literature/Language Building, Oswalt will present "Star Bright, Sky Brighter: The Problem of Light Pollution" Oswalt says, "Today almost everyone lives in or near a moderately large city. The spectacular view of the night sky enjoyed by our grandparents no longer exists; few people have even seen the Milky Way on a cool summer's evening! The growth of urban areas contributes to a rapid increase in what astronomers term 'light

pollution'. The growing brightness of the night sky has an adverse impact far beyond the concerns of professional astronomers. Light that ends up in the night sky is wasted energy; energy generated by the consumption of fossil fuels that is seriously affecting the environment in more than esthetic ways." During a photographic tour of Kitt Peak National Observatory, Dr. Oswalt will describe the nature of "light pollution," how it impacts astronomical research, and cost-effective solutions to the problem.

Dozens of key supporters are working with the Appreciation Club to sell advance tickets. Tournament passes--\$25 for adults and \$15 for students--will get fans into all 14 exciting tournament games. Single session tickets are \$10 each.

For information, call 718-2370, or visit the official tourney website at: www.chipola.cc.fl.us

Things You Might Not Have Known

The phrase "rule of thumb" is derived from an old English law which stated that you couldn't beat your wife with anything wider than your thumb.
