For additional program information, visit the [UCF website](#).

Health Information Managers are professional members of the modern health care team responsible for the acquisition and supervision of complete medical records on each patient; the design and management of health information systems which collect, process, store, retrieve, and release health information and statistics; assistance to administration, other health professionals, and medical staff in developing quality assurance programs by abstraction of medical data, preparation of statistical reports, and analysis of information; and assistance in collection and analysis of data for public health services planning.

For more information, please visit [The Occupational Outlook Handbook website](#).

The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.

Entrance Requirements

This is a limited access program.

March 1 is the application deadline for both the university and program applications.

A minimum GPA of 2.5 and a minimum grade of "C" in each program prerequisite course is required (no CLEP or AP credit).

Foreign language admissions requirement must be met before program admission.
