

This Associate in Science degree program prepares students for employment as computer technicians, network engineering technicians and in related occupations in electronics or information systems technology or to provide supplemental training for persons currently or previously employed in these occupations.

Students who plan to pursue a bachelor's degree in computer or management information science at a four-year college or university should fulfill the Associate in Arts degree requirements for the chosen transfer school.

For more information, visit the [Occupational Outlook Handbook website](#).

The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.
