

This Associate in Arts degree program is designed for students who plan to transfer and earn a bachelor's degree in Forensic Science at the University of Central Florida.

For additional program information, visit the [UF website](#).

Forensic Science serves the scientific needs of the justice system. The principal job of the forensic scientist is to examine physical evidence gathered at the scene of a suspect criminal action. Upon completion of a thorough laboratory examination of the evidence, the forensic scientist presents his/her findings in court.

For more information, please visit The [Occupational Outlook Handbook](#) website.

*The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.*

## Associate in Arts Degree
