This Associate in Arts degree program is designed for students who plan to earn a degree in Radiologic Sciences at the University of Central Florida.

For additional program information, visit the UCF website.

It is the only four-year degree program in Radiologic Sciences at a state university in Florida.

The primary role of the radiographer is to perform medical imaging procedures and diagnose disease and injuries. Radiation therapists work closely with physicians to deliver high-energy radiation for the treatment of cancer. Graduates are eligible to take the national registered technologist certification examination. Positions include radiographer and radiation therapist in hospitals, clinics, and physicians’ offices.

For more information, please visit the Occupational Outlook Handbook website.

The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.

Associate in Arts Degree

Radiologic Sciences
Transfer Institution:
University of Central Florida
