This Associate in Arts degree program is designed for students who expect to transfer in any of 16+ majors within the College of Engineering at University of Florida.

For additional program information, visit the UF website.

Engineers must possess a thorough working knowledge of math and science; an understanding of the legal, economic, environmental, and social restrictions of society; and clear and precise oral and written communication skills. UF engineering majors include aerospace, agricultural/biological, chemical, civil, computer, electrical, environmental, surveying/mapping, industrial, materials science, mechanical, and nuclear engineering.

For more information please visit The Occupational Outlook Handbook website.

The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.
