This Associate in Arts degree program is designed for students planning to transfer and earn a bachelor’s degree in health science and pursue the Master’s degree in occupational therapy at the University of Florida.

For additional program information, visit the UF website.

Occupational therapists use specialized knowledge to help individuals perform daily living skills and achieve maximum independence. Employers include hospitals, mental health facilities, schools, rehabilitation centers, home health agencies, business and industry, and private agencies.

For more information, please visit The Occupational Outlook Handbook website. The courses listed on this plan are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor.

### Entrance Requirements

This is a limited access, limited enrollment program.

A minimum cumulative GPA of 3.0 is required for admission; a minimum 3.0 GPA is required on all critical tracking courses with no grade lower than "C." The application deadline is February 1 for Summer and Fall admissions to both UF and Health Sciences. This means the university application, the department application, and all supporting information must be on file at UF by the deadline—not in the mail! Must have grades for prerequisite courses by end of Summer A term. Also, volunteer work supervised by a registered occupational therapist is strongly recommended. Check UF website for current information.

UF WILL DENY ADMISSION TO ANY STUDENT WHO HAS NOT SATISFIED THE STATE FOREIGN LANGUAGE ADMISSIONS REQUIREMENT.

All students entering UF are required to possess a personal computer. Check this UF website for specific computer hardware and software configurations for this major.
