The mission of the University Center at Chipola Junior College is to respond to the educational needs of Chipola’s service area by assisting students in the pursuit of upper-level degrees. The University Center is based on the belief that everyone who is capable of success has the right to an education. Traditionally, it has been necessary for residents of Chipola’s district to move away or commute long distances in order to continue their education past the AA or AS degree. With the creation of The University Center at Chipola Junior College, graduates with a two-year degree now have the opportunity to pursue higher education at Chipola.

The University Center is collaborating with four-year universities and colleges to bring Bachelor and Graduate Degree opportunities to our area and to assist students in their efforts to pursue a baccalaureate or post-graduate degree. University personnel teach all of the classes and the universities award the degrees. University Center programs provide students with a rigorous university experience in the supportive, student-centered atmosphere to which Chipola students are accustomed.

University Center students have access to Chipola’s computer labs, library, and other facilities, just as Chipola students do.

The following degree programs will be offered in cooperation with the University Center during the 2002-2003 school year. Class schedules for on campus degrees will be posted on the University Center Web-site, http://www.chipola.edu/university_center, as they become available. The site contains extensive information about all University Center programs. The following courses with an asterisk are taught on Chipola’s campus.
