Sunshine State Standards

Teachers must know the content of the Standards to be able to plan and implement curriculum. In this lesson you are to locate the standards for your grade level and print out a section of those standards. You can use there standards and benchmarks to plan your video lesson.

1. Go to the Florida Department of Education page at:
   http://www.fldoe.org

2. Move your cursor over the pink tab at the top of the page call K12 resources.

3. When the pull down menu appears click on Sunshine State Standards.

4. Go to this site. Look under the category Sunshine State Standards (the first group on the left) and select the category in the standards chart that best fits your subject area and grade level.

5. Print these standards.

6. Read through these standards. Identify one standard that you would like teach a lesson on.

7. Do an internet search to find a lesson that would teach this standard and print this lesson or develop a lesson on your own and type up the lesson on Word.

8. Highlight or mark the benchmark that your lesson plan would teach.
   Write your name on both assignments and have them ready to turn in on Monday.
