This Associate in Arts degree program is designed for students who plan to earn a degree in Health Information Management at Florida A & M University.

For additional program information, visit the FAMU website.

Health Information Managers are professional members of the modern health care team responsible for the acquisition and supervision of complete medical records on each patient; the design and management of health information systems which collect, process, store, retrieve, and release health information and statistics; assistance to administration, other health professionals, and medical staff in developing quality assurance programs by abstraction of medical data, preparation of statistical reports, and analysis of information; and assistance in collection and analysis of data for public health services planning.

For more information, please visit The Occupational Outlook Handbook website.

The courses listed on this guide are not to be construed as a contract between the student and Chipola or the University. Course requirements may change each year. You are encouraged to work closely with your advisor and with FAMU.
