

This Associate in Science degree program prepares students for entry level in the field of nursing.

Entrance Requirements

This is a limited access, limited enrollment program. All selected applicants are required to submit a completed FDLE background check and a drug screen.

All prerequisite coursework must be completed and all supporting documents on file by deadline.

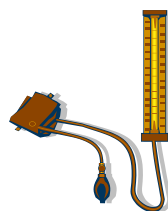

*Upon completion of the first semester of nursing coursework, the student is CNA eligible.

**Upon completion of the third semester of nursing coursework, the student is PN eligible.

For employment opportunities and other information, please visit the [Occupational Outlook Handbook](#) website.

While academic advisors, faculty and staff provide significant academic planning and related assistance to students, completion of all degree requirements, and the process of monitoring progress to that end, is ultimately the responsibility of the student.

ACADEMIC PLAN: Associate in Science Degree

Nursing (RN)

Code
2194

Program Length
72 credits

All coursework in the Associate in Science degree in Nursing must be completed with a grade of “C” or higher.

All Prerequisite Coursework must be completed at time of application. The courses in bold may also be completed prior to entrance into the program. If the courses are not completed by the designated term, the student will not be allowed to progress to the next term.
