

This Associate in Science degree program prepares students for employment as recreation leaders, recreation supervisors, group recreation workers or recreation facility attendants.

This program would also be beneficial for persons previously or currently employed in the above mentioned occupations. Students who plan to pursue a bachelor's degree in physical education or recreation at a four-year college or university should fulfill the Associate in Arts degree requirements for the chosen transfer school.

For more information, please visit the [Occupational Outlook Handbook](#) website.

While academic advisors, faculty and staff provide significant academic planning and related assistance to students, completion of all degree requirements, and the process of monitoring progress to that end, is ultimately the responsibility of the student.

ACADEMIC PLAN: Associate in Science Degree

Sports, Fitness, and Recreation Management

Code 2151 **Program Length** 60 credits

Entrance Requirements

All Associate in Science degree students must complete the required English and mathematics courses with a grade of "C" or higher.

An additional 21 hours of specific general education courses, the Gordon Rule, and CAAP requirements would be needed to earn an Associate in Arts degree.

2020-2021
